VICINITY ARRAS SCENE OF RAIDS

British Capture Machine Guns and Few Prisoners Near Neuville-Vitasse.

CASUALTIES ARE SLIGHT

Enemy Efforts Near Boyelles and Against French Near Hangard Repulsed.

(Associated Press.) British Headquarters in France, May 7.- There was a terrific bomdment of two hours' duration last night in connection with two raids. One was carried out by the enemy, and was unsuccessful. The other was by the Canadians, near Neuville-Vitasse, southwest of Arras. The Canadian raiders reported that many Germans were killed or wounded in hand-to-hand fighting and great destruction was wrought in the enemy's defense works.

Heavy rains are rendering the ground very bad for fighting. Undoubtedly the enemy is preparing for another violent blow, but the British are ready to meet it.

Paris, May 7.—Active artillery fighting occurred last night on both sides of the Avre on the front southeast of Amiens, the war office announces. The statement follows:

"The artillery on both sides was ac tive north and south of the Avre. A post near Hangard was repulsed. In the same region we carried out a local operation and brought back prisoners."

London, May 7.—The British made a successful raid last night near Neuville-Vitasse, southwest of Arras, the war office reports. Three machine guns were captured.

The statement follows: We carried out a successful raid night in the neighborhood of Neuville-Vitasse (on the front recently taken over by the Canadians; and captured a few prisoners and three mi chine guns, with slight casualties our troops. A raid attempted by th enemy near Boyelles was repulsed."

Baker Speech Wins for Lib. erty Loan in Baltimore.

Baltimore.—All records in money-coaxing oratory went by the boards when Secretary of War Baker made a liberty loan appeal to citizens of Baltimore. With less than 10,000 words, Baker brought from Baltimore bank accounts more than \$19,500,000 for the liberty loan—or about \$2,000 per word.

Baker spent just three hours in town. His principal address was to a big gathering of the city's business men, financiers and manufacturers.

The inability of the committee to find a solution acceptable to the navy department, the department of justice and the interior department has held

up the important oil leasing bill for more than three months.

The relief section of the bill was the only one in controversy after the fundamental theory had been worked out. The purpose of the bill is to stimulate oil production. This would be done by leasing areas on the public domain of not more than 560 acres to

with red blood and the brawn to do, the nerve to "buck-up", to climb mountains, and "go overthe-top,"or with stamina enough to meet the night attack. Energy is the most valuable thing in the world. You need energy every day, every minute of the day. It is the same behind the lines, in the work shop and on the farm. What is most needed is iron in the blood. Every man should have as much iron in his body as is contained in an ordinary "tenpenny" nail. If your blood is thin, watery, your face pale and anemic, or pimply, you feel depressed, blue, without energy to complete your daily tasks. It's time to heed the warning. Put fresh, clean blood in your veins, take "Irontic" tablets, a new combination of sol-

"Irontic" is a blood maker, a strength builder and a nerve tonic. You can obtain "Irontic" at most drug stores for 60c the vial, or you can obtain a test package by sending 10c to the Invalids' Hotel and Surgical Institute in Buffalo.
